PROTECTION YOU CAN COUNT ON

In June, 2014, Coastal Select was assigned a rating of "A" (Excellent) for financial strength and operating performance. The objective of A.M. Best's rating system is to provide an overall opinion of an insurance company's ability to meet its obligations to policyholders.

The financial strength rating of an insurance company is especially important for coastal homeowners who want to be sure their insurer can pay all their claims in the event of a large hurricane.
